

Well done everyone! These are all result after the first day!

Remember that we are online, all judging is live.

Sometimes we are faced with problems that we cannot control, such as the Internet. As our judges in the court are international judges, their locations are different, so each judge puts his points at their own pace. We look forward to understanding, because our IT specialists are professionals, they organized world-class competitions for Great Britain, and this time they are helping us in Latvia.

Remember that there are only 8 participants in the final. Situations if the number of points coincides then both are awarded (bronze place winners).

Good luck tomorrow. We will start at 2 pm. EET
